

Rescue Technician: Cave Rescue I/II

Non-certification Class

August 1-4, 2019

Certification Class

August 1-5, 2019

Presented by the

**Huntsville Cave
Rescue Unit Inc.**

In conjunction with
Alabama Fire College

ABOUT THE COURSE

This course is designed to present the most current, specialized cave rescue techniques to those individuals, groups, agencies and others interested in or charged with the responsibility of performing high angle, cliff, pit, or cave rescue.

The course is presented in seminar form, using both classroom and field work stressing hands-on training. The instructional team will consist of HCRU Instructors.

This course meets the NFPA 1006, chapter 18 qualifications for Rescue Technician: Cave Rescue I/II

WHO SHOULD ATTEND

Any individual interested in developing the array of technical, medical and management skills required to conduct cave/cliff/high angle rescue. This includes personnel from cave rescue units, fire departments, rescue squads, emergency management agencies, park service personnel, first responders, and EMTs. Individuals not working for an agency are welcome and encouraged to attend.

COURSE TOPICS

This course covers all phases of cave rescue and management:

- Single rope technique
- Incident command system
- Underground environment
- Underground communications
- Cave specific medical considerations
- Response systems
- Patient packaging and movement
- Hauling/lowering systems
- Vertical rescue
- Extrication techniques
- Pre-planning and logistics

EQUIPMENT NEEDED

All necessary equipment will be furnished with the exception of personal caving and safety gear. The following is strongly recommended to allow the student the maximum participation in the course:

1. UIAA /CE-Approved helmet, with chinstrap bracket (no fire helmets)
2. Three sources of light, with main source being mounted on the helmet
3. Sturdy, lugged-sole lace-up boots
4. Rugged outdoor clothing (no turnout gear)
5. Gloves with leather palms and full fingers (work gloves are fine)
6. Soft-capped kneepads (such as volleyball type pads)
7. Personal first aid kit - we will be outdoors, make the HCRU aware of any allergies (bees, poison ivy, etc)
8. Cash for lunches (not all places accept plastic)

REGISTRATION: Alabama Fire College 1-800-241-2467

Classes will be limited to 50 students.

Non-certification course: This course is \$90.00, has no prerequisites, and is open to anyone. Please register directly with the HCRU online.

NFPA 1006 Certification course: This course is \$320.00 (in state) and \$540.00 (out of state). Certification students must register through the Alabama Fire College and meet all prerequisites:

- Rescue Technician: Rope if certified prior to April 2010.
- RT: Rope Level I and RT: Rope Level II if certified after April 2010

Certification students must purchase **ON CALL** at AFC bookstore **1-866-984-3545**
